

CyberCom Global
The future of hospitality technology

PRESS RELEASE FOR IMMEDIATE RELEASE

KUALA LUMPUR, MALAYSIA, NOVEMBER 23rd 2009

CyberCom extends its presence at Kuala Lumpur International Airport

CYBERCOM GLOBAL The Asia Pacific's leading hospitality technology provider has completed phase one of a deployment that will see a further 6 terminals added to its existing network of public internet access PC's at Kuala Lumpur International Airport. KLIA sees over 35 million passengers per annum and is a major hub for both regional carriers and those from further afield.

CyberCom has formed a partnership with Teratek Kristal Sdn Bhd which will see the addition of their three strategically positioned outlets to the CyberCom Internet network. With this relationship finalised CyberCom hopes to reduce congestion at their other airport locations and continue to make it even easier for people to connect while they're on the move.

CyberCom Global looks forward to a long and enduring relationship with Teratek Kristal Sdn Bhd.

---ENDS---

CYBERCOM GLOBAL has offices in New Zealand, Australia, Singapore, Malaysia and Cambodia. They provide internet access services to hotels, airports and other tourism locations around the region. For more information please visit: <http://www.cybercomglobal.com>
